Principals Message

Good afternoon Parents & Carers,

This week was a busy one for Forrest Parade as we went through our second school review. A School Review is conducted every 4 years, over 3 days, with the resulting report providing detailed, evidence-based feedback in relation to each of the 9 School Improvement Tool Domains. The School Review Report also consists of a set of overall Commendations, Affirmations and Recommendations.

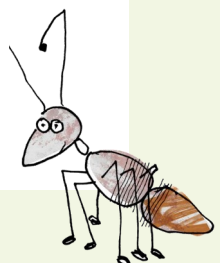

Over the last 3 days we have show-cased all we do at FPS and our reviewers heard and saw our commitment to our students, families, and each other. Our Comprehensive Literacy pedagogy and PODD focus was called out as exemplar work as well as our commitment to highly differentiated teaching and learning. Our strong partnerships were recognised, and the review team acknowledged and commended the great work we are doing around data. Thank you to the families and FPS partners who spoke to the reviewers.

A huge thank you to our awesome staff. We are so proud of our achievements, and this would not be possible without each and every member of the FPS team.

Thank you to our families and friends who attended our Open Garden this week. As always, we had a tremendous turn out and staff and students did themselves proud in sharing learning in the garden.

Lastly, I would like to thank the tireless efforts and incredible dedication of all our staff for World Teachers Day which we celebrated last month. The success of our school is a reflection of your inspired teaching and passion for education, and I thank you for all you do.

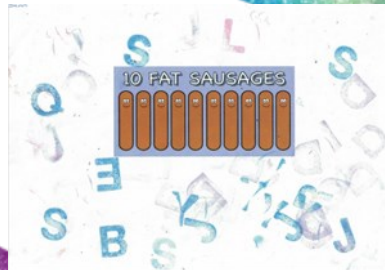

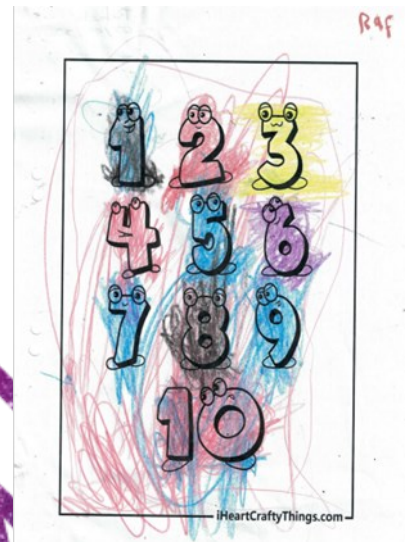

Annie Keighran

School News

1 A Class

Wonderful work of 1A

School News

2A Class

In 2A we have been learning about seasonal changes in our environment. Each week we are focusing on one of the four seasons.

Summer

Danny and Kyden are sorting hot and cold items in our environment. We also made ice cream!

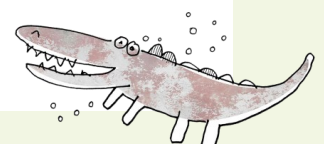

Autumn

Cruz is colour sorting items from our sensory bucket. We also made Halloween themed cupcakes!

Winter

This week we tried different ways to melt ice and unfreeze the creatures inside. Our favourite method used bicarb soda and vinegar.

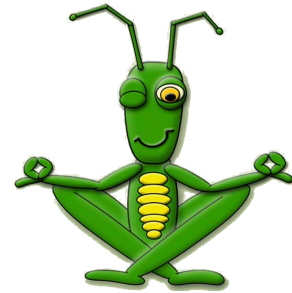

School News

Minibeasts

A minibeast is a small animal. It does not have a skeleton.

Minibeasts live all around us, including in our houses! They are found all around the world.

2 B Class

Name: Dragonfly

Food: flying insects like midges and mosquitoes

Fact: Dragonflies have been round for 300 million years

Name: Butterfly

Food: Drink nectar

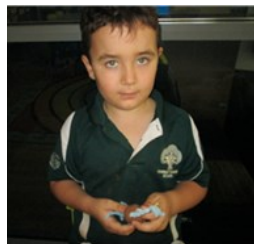

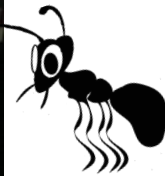

Fact: Butterflies taste with their feet.

Name: Ant

Food: Seeds, Nectar, Worms, Spiders, Small Lizards, Fruit

Fact: Ants are really strong! They can carry between 10 and 50 times their body weight.

Name: Honeybee

Food: Honey

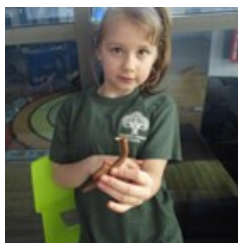

Fact: Bees are the only insects that make food that human can eat.

Name: Ladybird

Food: plants, greenfly, other insects

Fact: Ladybird bleed from their knees when they feel threatened.

Name: Snail

Food: rich in calcium to keep their shell strong

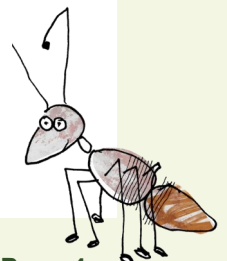

Fact: Snails have a shell on their back. This shell is for protection. When it feels threatened, a snail can pull itself all the way back into its shell.

Name: Spider

Food: insects, small animals like millipedes, wood lice, frogs

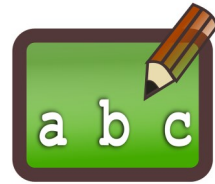

Fact: Some male spiders give dead flies as a present to females.

School News

1 C Class

This term we have been engaging in different group learning activities with me (Yoshi) as their new teacher. These different learning activities have provided us with the opportunity to create and develop relationships and further build those preexisting relationships. It has been fantastic to see all the children engaged and displaying positive teamwork!

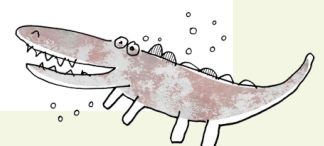

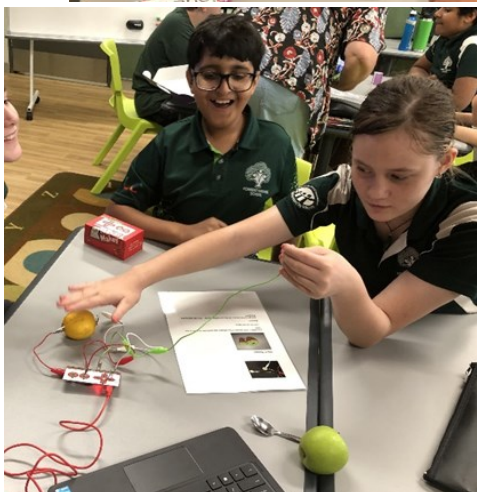

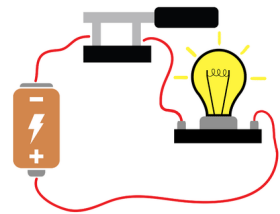

School News

2C Class

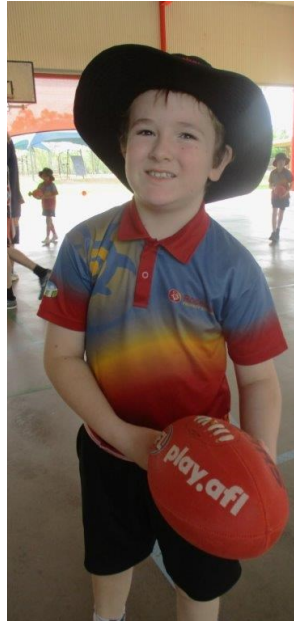

Class 2C have been learning about Circuits and Switches. The students have been learning about what electrical components are required to build a circuit that creates a pathway for electricity to flow around.

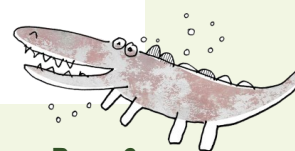

School News

Roseberry Satellite

The Roseberry Satellite Class have had a fantastic time learning a variety of AFL skills during our PE Inclusion with Ms Bakers Year 3/4 Class. Coach Dillion from AFL NT showed the students how to hold the football correctly, techniques in hand balling and doing a drop punt.

School News

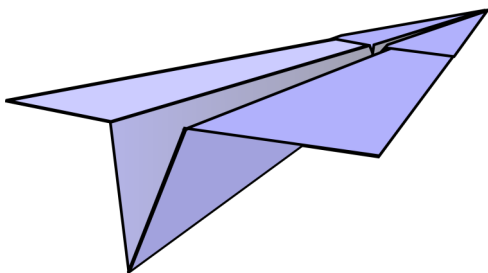

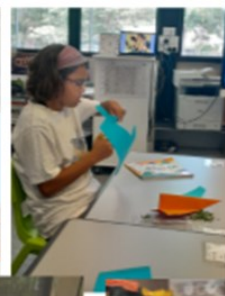

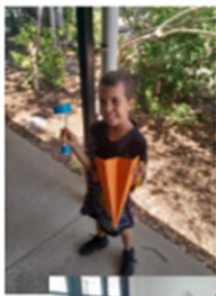

Moulden Satellite

Enjoying our time swimming again on Wednesdays at Forrest Parade

We have been having fun with conducting different Science experiments where we use our awesome thinking and investigating skills.

The Colour Fun-Run at Moulden was great fun on such a hot day!

IDEAS IN NUTRITION

Be more active more often

Less than 1/4 of Australian school children are moving their bodies enough to get all the benefits they can.

Activity can help kids

- sleep
- improve mental health
- have strong muscles and bones

You could try

- having a school friend over for a play date
- walk or ride to school
- help your child join a local group or team
- turn on some music and dance
